## To Whomsoever It May Concern

Alkyl Amines Chemicals Limited has installed, and used the **TAALC\_e (Tracker for Audits, Activities and Legal Compliances enterprise)** Software Package, of Webstac over the last six months to track its statutory obligations and has found the system user friendly at the operating level, useful for **Senior Management for monitoring** and expandable to include many other time based obligations. We are using it, for all our manufacturing sites across India.

We have no hesitation in recommending the system to any other corporate user.
