Dear Bukkawarji;

We are happy to share our feedback regarding experience of our team in usage of TAALC_e software provided by Webstac.

Following are key benefits which we have observed while using the TAALC_e software.

- ✓ It has helped us to move from Excel based monitoring to software based tracking system.
- ✓ More visibility in compliance monitoring
- ✓ Escalation facility helped in ensuring compliance within the time limits
- ✓ Reviewing the compliance status effectively
- ✓ On the basis of compliance Unit head gives his feedback to CEO of the organization. This has built confidence in ensuring 100% statutory compliance.
- ✓ It has also enhanced the awareness among users.

We highly appreciate such initiative which is really helping us in adhering to one of the important aspect of running our business i.e. "Statutory Compliance Monitoring".

We look forward to have continued association with Webstac for the years to come.

With kind regards;

Ravindra Joshi
