

**Hello.**

**Have you any viable business plan that needs funding? I am acting on behalf of a wealthy Libyan family who are cautious of not exposing their finances due to their political affiliation.**

**For the safety of their funds the investors are capable and willing to invest huge sum of money in any business abroad in both short and long term projects.**

**The funds are available in cash and will be released simply upon proof of feasibility of the business and demonstration of managerial skill by the project manager. Please note there are other potential business opportunities coming up; the earlier we receive your proposal the better your chance to partner with us.**

**Please contact me with the below alternative email address: Email:**
