

Welcome To Money Link

The single biggest challenge facing individual and enterprises in South Africa today is accessing the funding they need to help them capitalize on the growth opportunities that present themselves.

Money Link offers business loan, home loan, personal loans and debt consolidation products that enable the responsible use of credit as part of a structured financial plan at 4% interest rate. Too many South Africans fall prey to debt traps as a result of ill-informed financial decisions. Products such as multiple and payday loans can very quickly lead to crippling debt. Loans taken from unscrupulous lenders aren't usually designed around a customer's unique financial situation and have high repayments and high interest rate; we assist contractors/farmers to acquire their own machineries.
